**Table 3-6. Agricultural Demand Units in San Joaquin River and Tulare Lake Hydrologic Regions (contd.)**

Notes:

<sup>1</sup> Water Budget Area (WBA) 50 is located within the Delta but is included here because CVP water is supplied via the Delta-Mendota Canal.

<sup>2</sup> WBA 90 and WBA 91 are located in the Tulare Lake Hydrologic Region but are included here because CVP water is supplied via the joint reach of the California Aqueduct and via the Mendota Pool.

Key:

CVP = Central Valley Project

DD = Distribution District

Delta = Sacramento-San Joaquin Delta

GW = groundwater (• = access to groundwater, - = no access to groundwater)

ID = Irrigation District

N/A = not applicable

RD = Reclamation District

PUD = Public Utility District

Reclamation = U.S. Department of the Interior, Bureau of Reclamation

SW = surface water (• = access to surface water, - = no access to surface water)

SWP = State Water Project

WCD = Water Conservation District

WD = Water District
