

Table 3-9. Wetland Demand Units in Sacramento River Hydrologic Region

Demand Unit	Refuge/Wildlife Area	Managed by	Water Provider	Water Source		
				GW	SW	Point of Diversion and Conveyance
08N_PR1	Sacramento NWR	USFWS	Reclamation	-	•	Glenn-Colusa Canal
08N_PR2	Delevan NWR	USFWS	Reclamation	-	•	Glenn-Colusa Canal
08S_PR	Colusa NWR	USFWS	Reclamation	-	•	Glenn-Colusa Canal, Colusa Basin Drain
09_PR	Llano Seco Unit, Upper Butte Basin WA, Llano Seco Unit, Sacramento River NWR	CDFW, USFWS	Water rights	-	•	Sacramento River, Butte Creek
11_PR	Upper Butte Basin WA – Little Dry Creek and Howard Slough Units	CDFW	Western Canal WD, Richvale ID	•	•	Thermalito Afterbay via Western Canal and Sutter-Butte Canal
17N_NR	Butte Sink Duck Clubs ²	Private, USFWS	Water rights, Western Canal WD	-	•	Thermalito Afterbay via Western Canal, Butte Creek
17N_PR	Gray Lodge WA	CDFW	Reclamation, DWR (by exchange)	•	•	Thermalito Afterbay via Biggs-West Gridley WD canals
17S_PR	Sutter NWR	USFWS	Reclamation, Sutter Extension WD	-	•	Sutter Bypass, Sutter Extension Canal

Notes:

¹ The Sacramento River National Wildlife Refuge consists of 27 units along a 77 mile-long stretch of the Sacramento River. These wetlands are not represented explicitly in CalSim 3. Land use is included as part of the non-project demand units within the respective Water Budget Area (WBA): 2,797 acres in WBA 04, 1,726 acres in WBA 5, 3,098 acres in WBA 8, and 3,010 acres in WBA 09.

² The Butte Sink duck clubs consists of lands within the 1922 Duck Club Boundary and signatory to an agreement with Western Canal WD. Includes the 733-acre Butte Sink National Wildlife Refuge managed by USFWS but does not include wetlands within Reclamation District 1004 or wetlands to the east of 1922 boundary. This wetland demand unit may be expanded in the future to include all lands which are part of conservation easements with the USFWS and are part of the Butte Sink Wildlife Management Area.

Key:

CDFW = California Department of Fish and Wildlife

GW = groundwater (• = access to groundwater, - = no access to groundwater)

ID = Irrigation District

NWR = National Wildlife Refuge

SW = surface water (• = access to surface water, - = no access to surface water)

USFWS = U.S. Fish and Wildlife Service

WA = Wildlife Area

WD = Water District

Table 3-10. Wetland Demand Units in San Joaquin River and Tulare Lake Hydrologic Regions

Demand Unit	Refuge/Wildlife Area	Managed by	Water Provider	Water Source		
				GW	SW	Point of Diversion and Conveyance
63_PR1	Arena Plains and Snow Bird units, Merced NWR ³	USFWS		-	•	Drainage water from Turlock ID and Stevenson WC
63_PR2	Merced and Lone Tree Units, Merced NWR	USFWS	Reclamation	•	•	Merced ID, via Deadman Creek and Duck Slough
63_PR3	East Bear Creek Unit of San Luis NWR	USFWS	Reclamation	•	•	Eastside Bypass, Bear Creek, Livingston Drain
72_PR1	Volta WA	CDFW ¹	Reclamation	-	•	Delta-Mendota Canal via the Volta Wasteway, Central California ID Main Canal
72_PR2	Kesterson NWR	USFWS ⁵	Reclamation	•	•	Grassland WD via San Luis Canal, Santa Fe Canal, and Fremont Canal
	Freitas Unit, San Luis NWR	USFWS	Reclamation	• ²	•	Grassland WD via San Luis Canal, Santa Fe Canal, and Fremont Canal
	Blue Goose Unit, San Luis NWR	USFWS			•	Grassland WD via San Luis Canal, Santa Fe Canal, and Fremont Canal
72_PR3	San Luis Unit, San Luis NWR	USFWS	Reclamation	-	•	San Luis Canal Company via island C Canal Salt Slough.
	West Bear Creek Unit, San Luis NWR	USFWS	Reclamation	•	•	San Luis Canal Company via island C Canal.
72_PR4	Los Banos WA	CDFW	Reclamation	•	•	San Luis Canal Company via San Pedro Canal, West Delta Canal, Grassland WD Boundary Drain, and Salt Slough via San Luis Canal
	Gadwall Unit, North Grassland WA	CDFW			•	
	Salt Slough Unit, North Grassland WA	CDFW	Reclamation	•	•	Grassland WD via San Luis Canal
	China Island Unit, North Grassland WA	CDFW	Reclamation	•	•	Central California ID via J Lateral
72_PR5	Grassland WD - north	Private	Reclamation	-	•	Delta-Mendota Canal via the Volta Wasteway, Central California ID Main Canal
72_PR6	Grassland WD - south	Private	Reclamation	-	•	Central California ID via Main Canal, Arroyo Canal, and San Pedro Canal
91_PR	Mendota WA ⁴	CDFW	Reclamation water rights	-	•	Mendota Pool via Fresno Slough

Table 3-10. Wetland Demand Units in San Joaquin River and Tulare Lake Hydrologic Regions (contd.)

Notes:

¹ Although owned by Reclamation, the Volta Wildlife Area has been leased to and managed by CDFW since its creation in 1952.

² Drought period supply.

³ CVPIA does not apply to the Arena Unit.

⁴ The Mendota Wildlife Area is located in the Tulare Lake Hydrologic Region but is included here as it diverts water from the Fresno Slough/Mendota Pool.

⁵ Kesterson National Wildlife Refuge is owned by Reclamation and administered by USFWS.

Key:

CDFW = California Department of Fish and Game

GW = groundwater (* = access to groundwater, - = no access to groundwater)

ID = Irrigation District

NWR = National Wildlife Refuge

Reclamation = U.S. Department of the Interior, Bureau of Reclamation

SW = surface water (* = access to surface water, - = no access to surface water)

USFWS = U.S. Fish and Wildlife Service

WA = Wildlife Area

WC = Water Company

WD = Water District
